

Instructions to launch Student ICT Curriculum

1. Download the Student ICT Course - Year 01.zip file from the Google Drive link available at DSERT website <<Link to the web page on DSERT website>>. The **Student ICT Course - Year 01.zip** file is saved in your local system.
2. Go to the location where you have downloaded the file.
3. Right-click the file and select Extract Here. The extracted folder is displayed.
4. Open the **Student ICT Course - Year 01** folder and go to the English folder.
5. Right-click **index.html** and select **Make Link**. A shortcut link is created In the same folder.
6. Copy the shortcut link file, **Link to index.html**, to your desktop.
7. Launch the **index.html** file to launch the Student ICT course. The course is launched.

Remember:

- If you move or delete any file in the extracted folder, the course will not work as intended.
- If you launch the index.html from the Student ICT Course - Year 01.rar file directly, without extracting the contents, the course will not launch.
